

OFF GRID LX 30/60

OFF GRID LX 30/60 – Reliable, Efficient Temporary Power with Advanced Monitoring

FEATURES:

GSM Remote monitoring : Real-time tracking for increased reliability and performance

Single to three phase conversion : Flexibility to meet different site power requirements.

Automatic generator auto-start : The battery controls the start and stop of the generator based on the parameters specified by the site team.

Cloud Based Solutions : Easy and Dynamic dashboards for evaluating the performances

Reports : Diesel & Carbon Footprint savings report for tracking the environmental goals

Output Specifications

Nominal Output power (continuous)	KVA	30
Peak Output power (5s)	KW	60
Voltage	V	400/230
Frequency	HZ	50
Phase (s)		3
Usable energy AC side (@80% DoD)	KWh	48
Battery Nominal capacity (sizes)	KWh	60

Battery specifications

Battery (Type)	Gel lead acid OPzV-S	
Battery rated Voltage	VDC	50

Output Power Connection

125A 3P+N+E	1
63A 3P+N+E	1
32A 1P+N+E	3
